

Program Overview

What is it?

1,000 Books Before Kindergarten is a non-profit program which encourages the development of children's early literacy skills before kindergarten by reading to children.

How do I participate?

It is easy to participate! Every time you read to your child or your child hears a story record it in the reading log, then you or your child colors in the apple. Does your child have that one book they want to read over and over again? You can repeat titles as often as your child likes. Once the log is complete, bring the log back to the library and your child will receive a prize. Don't forget to pick up a new reading log!

No need to be scared of the numbers! Just think of it this way: If you read one book every night for 365 days in a year then you will have 365 books completed. In 2 years you will have read 730 books. You will have totaled 1,095 books in 3 years!
